

Proven Product. Better Protection.

Shingles without
Scotchgard™ Protector

Shingles featuring
Scotchgard™ Protector

A roof in Florida. Shingles with 0% (left) and a minimum 10% (right) blend copper granules after 6 years. Results may vary based on climatic conditions.

Avoid the ugly look of black streaks. Choose shingles with Scotchgard™ Protector.

Your home is your castle, but black streaks caused by algae can destroy its visual appeal. Make sure your roof is protected with shingles featuring Scotchgard™ Protector—the only Holmes approved shingles for algae protection!

Introducing the only Holmes approved roofing solution for algae protection.

**APPROVED
PRODUCTS**

The right shingles can give your home a beautiful, distinctive finish. Unfortunately, most roof shingles available today are susceptible to ugly black streaks caused by algae.

Scotchgard™ Protector is an industry-leading defense against black streaks caused by algae, and shingles featuring Scotchgard Protector are the only Holmes approved roofing solution for algae protection. Why is that important? Because Mike Holmes accepts nothing less than top-performing products that are proven to last.

“Let’s keep making it right.”
–Mike Holmes

Scotchgard Protector. Trusted. Proven. Durable.

People all over the world trust Scotchgard Protector more than any other brand of protection. It’s the recognized leader, proven to be durable and effective.

A lifetime of protection against black streaks caused by algae.

Shingles featuring Scotchgard Protector use 3M’s unique ceramic-coated granules. These granules are engineered to precisely release copper ions into the dew on your roof and resist weathering.

Decades of science behind every shingle.

3M pioneered the science of algae protection. The result is protection of your home’s beauty and against black streaks caused by algae. And lasts the life of your roof.

Minimum of 10% blend of copper-containing granules in every shingle

Copper granules are distributed uniformly across the shingle surface, hip and ridge.

Shingles are 3rd party tested to ensure 3M standards are met.

More than one million homes protected against black streaks

Don’t risk your home’s beauty with any other shingles. Ask your contractor to install Holmes approved shingles featuring Scotchgard Protector. Learn more at 3M.com/resistblackstreaks.
